

**DELIVER BETTER VIDEO EXPERIENCES**  
Broadcast-quality Video Delivery and Live Broadcasting

**THE DASHBOARD**  
BG VIDEO DELIVERY™

The BG Video Delivery dashboard offers an easy-to-use interface for managing files, accessing summary and comprehensive reports, valuable tools, and more.

**FILE MANAGEMENT**

Adding and removing files on BitGravity’s network is as simple as managing files on your own computer. In addition to supporting FTP, rsync, and Webdav, customers have access to a Java applet in their dashboard account which enables simple file and folder management.

**REPORTS**

Customers have access to valuable, near real-time reports through the dashboard. In addition to key reports highlighted below, customers have access to a broad range of reports and can parse raw logs for deeper analytics.

- TRAFFIC  
**Data:** Mbps, GB delivered, 95<sup>TH</sup> percentile usage by traffic  
**Variables:** by geography (country, region) and ASNs over time
- CONTENT  
**Data:** Files  
**Variables:** by hits, GB delivered, and HTTP status code over time
- BROWSERS & USER AGENTS  
**Data:** # of hits, % of hits  
**Variables:** over time

Reporting formats include a graphical Web interface, CSV downloads, and CSV/XML using the BitGravity Web services API.

**DOCUMENTATION, TOOLS & APPLICATIONS**

The dashboard is where BitGravity provides access to product implementation documents, FAQ, APIs, and more.

- BG VIDEO DELIVERY
  - Quickstart Guide
  - API documentation for Advanced Progressive and Secure Access
  - Application for metadata injection into Flash videos
  - Network Troubleshooting Utility (runs diagnostics on end-users’ network connections with automatic submission to BitGravity Support)
- BITGRAVITY FLASH PLAYER
  - Player API

**SUPPORT**

BitGravity support is best accessed through the dashboard. Customers can create, manage, and review the status of their support tickets through the dashboard.
